Installing the Android Application through Application APKInstaller

1. Install any File Manager Application like APKInstaller on Android device.
2. Connect the phone/device to PC using a USB cable.
3. Copy ParkingHelpmate.apk from the PC to the device's SD Card.
4. Open file manager application on the device and navigate to the ParkingHelpmate.apk file in SD Card and select it.
5. Follow the instructions and dialogs to install ParkingHelpmate.

Installing the Android SDK Android Application

1. Download and install the Android SDK from the below link
<http://developer.android.com/sdk/index.html>
2. Install Google play Services and Google USB Driver from SDK Manager->Extras.
3. Import Google play services lib project to eclipse.
4. Add google play services lib to ParkingHelpmate project through properties->android.
5. Modify your Android phone's settings to allow installation of applications from other sources.
In the phone, go to "Settings", select "Application Settings" and enable "Unknown Sources". Also, in "Settings", select "SD Card" and "Phone Storage" and enable "Disable use for USB Storage".
6. Open the Windows Command Prompt and type "adb install path\ParkingHelpmate.apk".
7. ParkingHelpmate application is ready to use.
